SKILLS

- Python
- SQL
- Data Analytics
- Data Visualization
- Power BI
- C - Basics
- C++
- Java
- Html
- CSS
- JavaScript

EXPERIENCE

Mindtree Hyderabad
(Software engineer) Aug. 2021 – June. 2022

- As part of a project at Mindtree, I have worked in the finance and operations team of Dynamics 365 project and monitored more than 1000 CI/CD pipeline runs and their deployments and reported issues in Azure DevOps.
- Assisted 400+ developers to deliver their changes.
- Used Incident management tool to resolve 300+ incidents and change request tickets per month.
- Created Power BI reports to view daily runs of CI/CD pipelines, Daily pass percentages of cloud test runs and reports on resolved and active incidents from the logs and embedded those reports in Azure DevOps dashboards.

EDUCATION

Bharat Institute of Engineering and Technology Hyderabad
Bachelor of Technology in computer science engineering: CGPA: 7.97 Aug. 2017 – July. 2021

Narayana Junior College Hyderabad
Intermediate(xii) (MPC): Percentage: 94.7% Aug. 2015 – April. 2017

Sri Guru Datta High School Hyderabad
SSC (X): GPA: 9.3 June. 2014 – April. 2015

PORTFOLIO PROJECTS

Superstore Sales Insights Dashboard: Created the Sales overview dashboard and reports after cleaning and modeling the dataset of sales from 2010 to 2014.

- GitHub Link: github.com/pramod-T/SuperStore_sales_Insights

Used Car Price prediction: Model that predicts the price of a used car, using the previous cars purchase data.

- GitHub Link: github.com/pramod-T/Used_Car_Price_prediction

Purchase Price Prediction: Created a Model using python, which is trained on the products data of customer purchased to predict the purchase value. Performed Exploratory Data Analysis (EDA) and Feature Engineering (FE) on data before training the model.
